

Good morning Mirissa,

Thanks so much for having these nice get together's and providing food and refreshments to our wonderful community. I also want to thank you personally for asking about Harold. You show so much compassion and concerns and you really do a nice job here at Stone Oakes. You have the greatest group of associates, including the maintenance personnel. We are glad to say, that we are seeing some improvements and anxious to see more. We cannot wait to see the update to landscaping and hopefully painting of the entire complex, including the garage doors. Harold said thanks for the Tacos, we hope to see you on Thursday night, as we will be thirsty. It appears we did get some results regarding the (2) properties just to the east on Pecos, that are vacant and run down, this does look a lot better.

Thanks again for making this a nice place for us to call home.

Hope you have a great day.

Wes and Harold
